

COLORE E CONSERVAZIONE

VIII INTERNATIONAL CONGRESS COLORE e CONSERVAZIONE
Venice | 25-26 October 2018

SUPPORT *(the)* IMAGE

*Consolidation and conservation issues
in modern and contemporary painting supports*

PRESENTATION

The CESMAR7 association - *Research Center for Conservation Materials*, in partnership with Ca' Foscari University of Venice, is excited to announce the **VIII INTERNATIONAL CONGRESS COLORE E CONSERVAZIONE**

COLORE E CONSERVAZIONE 2018 is the ideal continuation of the 2015 congress that introduced the theme of conservation of modern and contemporary art in a more general vision. The goal of this edition is to offer a greater, in-depth analysis of the complex field of contemporary art conservation, focusing on the treatment phases and reaching a higher level of specificity for the dissemination of international contributions.

C&C 2018 will center on structural treatments and issues in the consolidation of modern and contemporary paintings, in particular **how these steps are strictly connected with the artwork image and how they influence its general aesthetics**. This year's subject matter addresses the lack of dissemination and systematization of studies on consolidation and conservation of contemporary painting supports, especially in Italy. The C&C International Congress will offer the opportunity to share scientific and analytical contributions, with great emphasis on case studies and data that could support conservators during their practice and conservation challenges.

The general objectives of this two-day congress are:

- **The dissemination of systematic and analytical studies on products' stability for consolidation and structural treatments**
- **The dissemination of innovative methodologies for the above-mentioned phases**
- **Sharing experiences and relevant case studies**

Cesmar7 - Centro per lo Studio dei Materiali per il Restauro
Viale dei Mille, 32 - 42121 Reggio Emilia

Attività professionale non regolamentata disciplinata ai sensi della legge 14/1/2013, n.4 (G.U. 26/1/2013, n.2)

COLORE E CONSERVAZIONE

SCIENTIFIC COMMITTEE:

Ilaria Saccani (CESMAR7), **Roberto Bestetti** (CESMAR7), **Davide Riggiardi** (CESMAR7), **Maria Fratelli** (CESMAR7), **Alessandra Tibiletti** (CESMAR7), **Barbara Caranza** (CESMAR7), **Grazia Cavanna** (CESMAR7), **Elisabetta Zendri** (DAIS, Ca' Foscari University of Venice), **Francesca Caterina Izzo** (DAIS, Ca' Foscari University of Venice), **Dominique Scalarone** (Dept. Chemistry and NIS Centre, University of Turin), **Petra Demuth** (CICS Cologne), **Hans Portsteffen** (CICS Cologne)

Organizing Committee:

Lorenzo Marchet (CESMAR7), **Ester Montigelli** (CESMAR7), **Giulia Simbula** (CESMAR7), **Laura Semenzato** (CESMAR7), **Gabriele Melioli** (CESMAR7)
